TITLE	CITED BY	YEAR
Cyberattack Detection by Using a Discrete-Time Model-Based Unknown Input Observer QH Nguyen, O Sadki, H Rafaralahy, M Haddad, A Zemouche IEEE Control Systems Letters 8, 856-861	2	2024
Application of Discrete-Time Unknown Input Observers for Cyberattack Detection in Connected CACC Vehicles S Bougherara, QH Nguyen, M Haddad, H Rafaralahy, A Zemouche The International Conference on Electrical and Computer Engineering …		2025
Distributed High-Gain Observer for Nonlinear Connected Autonomous Vehicle S Meng, QH Nguyen, A Zemouche, F Meng, F Zhang 2025 American Control Conference (ACC), 626-631		2025
Cyberattack Estimation in Intelligent Transportation System by Using an Adaptive High Order Sliding Mode Differentiator O Sadki, QH Nguyen, A Zemouche, H Rafaralahy, M Haddad 2025 33rd Mediterranean Conference on Control and Automation (MED), 43-48		2025
Neural Observer-Based Learning for Robust State Estimation QH Nguyen, S Meng, M Haddad, H Rafaralahy, A Zemouche The International Conference on Electrical and Computer Engineering …		2025
