

Quang Huy NGUYEN

8 Avenue Bivaque, Longwy, France — (+33) 7 83 12 78 68 — huyq1471@gmail.com

Expérience d'enseignement

- 2023 – présent **Enseignant vacataire (+ de 200 h)**, IUT de Longwy, Université de Lorraine, Département GEII
- Enseignements en B.U.T. GEII et Licence : automatique, informatique industrielle et systèmes embarqués.
 - Encadrement de TP/TD et de projets tutorés.

Compétences techniques

Automatique Automatique avancée, systèmes embarqués, robotique.
Outils MATLAB/Simulink, Python, C/C++, LaTeX.
Langues Anglais scientifique courant, français courant, vietnamien natif.

Formation

- 2023 – 2026 **Doctorat en automatique**, Université de Lorraine, France
2019 – 2021 **Master en sciences et ingénierie du contrôle**, Aix-Marseille Université, France
2016 – 2019 **Licence en sciences et ingénierie du contrôle**, Aix-Marseille Université, France

Research Publications

- [1] **Q. H. Nguyen**, S. Meng, M. Haddad, H. Rafaralahy, A. Zemouche, *Resilient Trust-Aware Distributed Observer Design for Connected Vehicle Platoons*, 23rd IFAC World Congress, 2026 (accepted).
- [2] S. Meng, **Q. H. Nguyen**, M. Alma, A. Zemouche, M. Haddad, *Distributed Unknown Input Observer for Vehicle Platoons Under Sensor Faults*, 23rd IFAC World Congress, 2026 (accepted).
